SUMMARY

To work in a environment which encourages me to succeed and grow professionally where I can utilize my skill and knowledge appropriately

SKILLS

Languages: Java, SQL, Python, JavaScript, HTML, Css.

Soft Skills: Team Work to achieve the goal, Decision making .

PROJECTS

Python — **MOVIE REVIEW USING SENTIMENTAL ANALYSIS AND LEXICAL APPROACH**
It is a web based application which is use to Analyse the sentiment (or) mood of the user based on their reviews. In this project we used python language for analyse the sentiment of the user by their reviews. We have used Django as host for the web based application. Here we used sqlite3 for our database to store the information of the user their reviews.

JAVA / J2EE — **Student-Library Management System**
It is a web based application which is use to give the information of the student and the book they took from Library . In this project I used Java language to create an Api and HTML,Css for Front-end and Data -Base as Mysql. This application run on Apache Tomcat server to get better service

EDUCATION

Aug/2022 march/2023	- **SLA** JAVA J2EE course	**Course**
